

2009 Borland Forum.

THURSDAY 1ST OCTOBER 2009

"Experimental and FE analysis of Quasi-Static Bending of Foam-Filled Structures"

Shigeaki Kinoshita

Swinburne University of Technology

"Low-Fouling Poly(N-vinyl pyrrolidone) Capsules with Engineered Degradable Properties"

Cameron Kinnane

University of Melbourne

"Advanced Processing and Applications of Silk Materials"

Rangam Rajkhowa

Deakin University

"Investigation of Size Effect on the Tensile Strength of Fine-Grained Copper"

Andrey Molotnikov

Monash University

Borland Forum – Thursday 1st October 2009

This year the Borland Forum will be held on Thursday October 1st in the Chemical and Biomolecular Engineering Lecture Theatre (Building 165) at The University of Melbourne.

A map of the Melbourne University campus can be found on

<http://www.pb.unimelb.edu.au/CampusMaps/Parkville.pdf>

There will be refreshments available from 6.00pm and

the presentations will start at 6.30.

Presentations will be 15 minutes + 5 minutes question time.
